

Compassionate Release

Your Honor,

Feb 27/2022

I applied for compassionate release to the warden on Jan, 26/2022. It was filed through Ms. Behrthe social worker according to prison policy.

I filed under rehabilitated release due to my medical issues such as, neuropathy, ortho and rheumatoid arthritis, ~~scoliosis~~, fractures in my spine that have never healed, sleep apnea. I also can no longer take pain meds for my arthritis as they are causing damage to my liver & kidneys as well as diabetes and osteoporosis. I now can only get around with the use of a walker and have BMI of over 100%.

I don't get in trouble and have taken over ~~100~~ 130 classes to ~~improve~~ improve myself.

Please grant me compassionate release.

Thank you,
Daffene Edwards
